Contact teaching period in autumn and spring periods

- » continuing students 1.9.2019 - 30.5.2021 (9 subsidised months) Studies in the fields of social services and health care, energy and environmental technology, forestry and other fields as well, if needed, will begin in August, at a time to be determined separately.
- » new students 24.8.2020– 30.5.2021 (9 subsidised months)
- » contact teaching period for new students starting their studies in January will begin on 7th January 2021

All degree students at Karelia UAS have either scheduled studies or studies to be conducted independently during autumn and spring periods.

No autumn or winter breaks are scheduled for students during autumn and spring periods. Degree students receive financial aid for autumn and spring periods automatically, if they have once applied for it. Student Services informs KELA about the duration of this period. Students must earn the minimum of 5crs/aided month, i.e. 9 aided months presumes 45 crs of studies. If the student does not earn enough credits, s/he is responsible for cancelling the aid by informing KELA.

Summer period 1.6. - 31.8.2021

Summer studies conducted during the summer period provide the students with an opportunity to speed up their studies by taking degree-related studies in summer time. No common teaching for degree students will be arranged during this period. Degree students studying during this summer period can apply for financial aid for this period separately. Students must earn the minimum of 5 crs/aided month and the minimum of 18 days of studies/aided month must be included in this period.
